Federal Funding Changes for IMDs

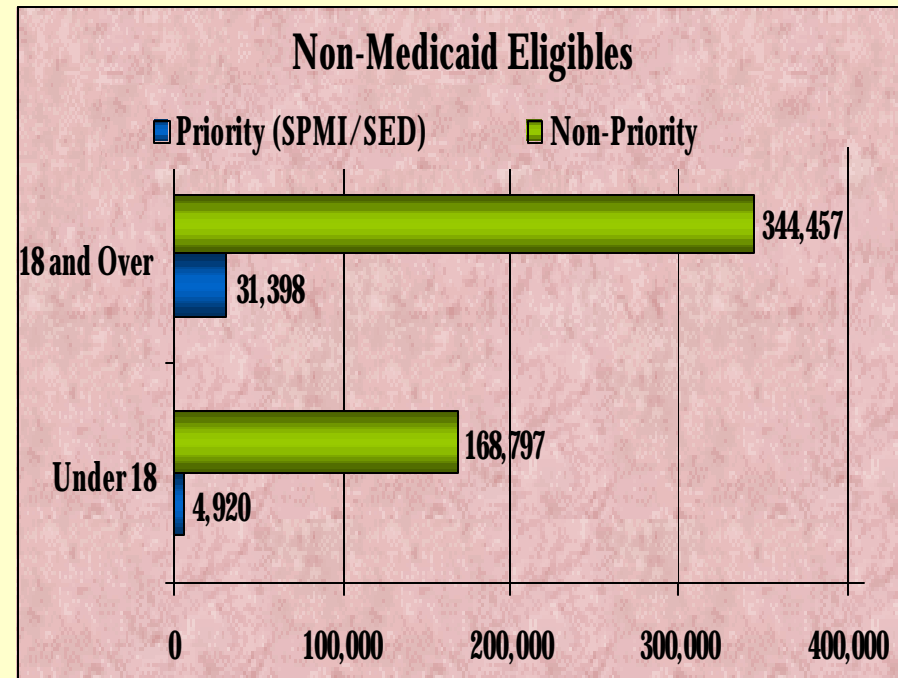

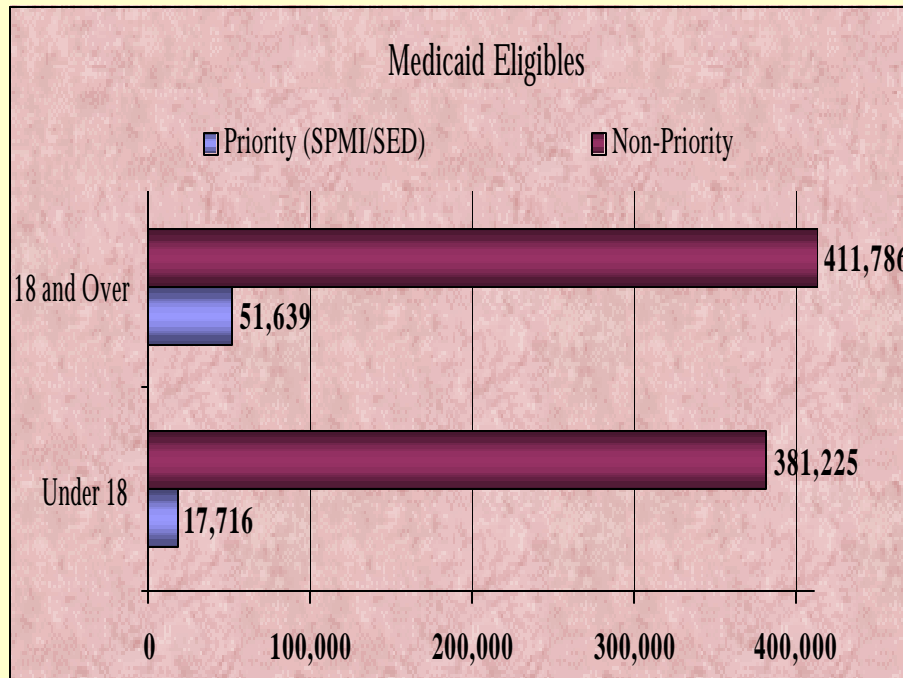

Beginning in July 2002, federal participation in funding for Institutions for Mental Diseases (IMDs) is being phased out on the following schedule:

Period	Allowable Portion of Expenditures
• July 1, 2002 – June 30, 2003	100%
• July 1, 2003 – June 30, 2004	100%
• July 1, 2004 – June 30, 2005	100%
• July 1, 2005 – June 30, 2006	50%
• July 1, 2006 – June 30, 2007	0%

Federal regulations prohibit coverage of individuals between the ages of 21 - 64 in free standing psychiatric hospitals. Under the previous waiver, and under the current waiver until July 1, 2005, Tennessee is excluded from this regulation. The regulation applies to private and public psychiatric hospitals.
